

# Zones of Regulation

# What is self regulation?

The ability to focus your attention, control your emotions and manage your thinking, behaviour and feelings.

What do you do  
when your body  
feels cold?

What do you do  
when your body  
feels hot?

This is called **SELF REGULATION!** You regulate your body so your body feels comfortable and safe.

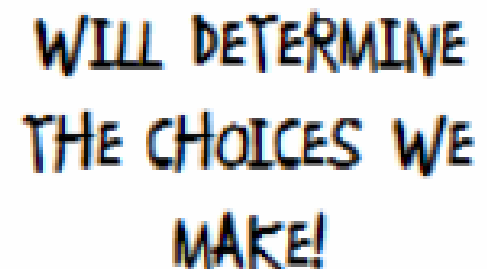

You can also regulate your thinking and your feelings too.

What we THINK  
is how we.....

FEEL! How we  
FEEL.....

WILL DETERMINE  
THE CHOICES WE  
MAKE!

The first step to self-regulation is identifying how your body and brain feels. There are four zones that help us with this. These zones are called the Zones of Regulation!

How does my brain  
and body feel?

The four zones are:

BLUE GREEN YELLOW RED

| Blue   | Green  | Yellow  | Red  |
|--|--|---|--|
|  |  |  |  |

All zones are OK! All feelings are OK!

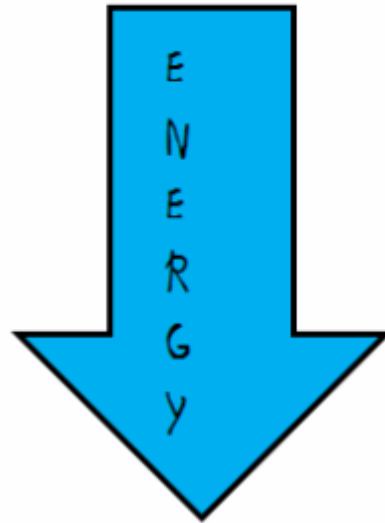

We make others  
feel comfortable  
and safe when we  
are in the  
EXPECTED ZONE  
at the  
EXPECTED TIME.

## The Blue Zone

We are expected to be in the Blue Zone just before bed time or when we are watching the TV. We are running slow! We might be tired or sad. This is an unexpected zone to be in for learning.
